

© Adding to photo with CS3 and Laptop Computer.

1. Click on Start/All Programs/Accessories/System Tools/Character Map
When the map is displayed, select the font you desire from the dropdown menu.
Scroll through the font and locate the © symbol.
Click on the symbol and then select Save and then select Copy.
Do not close the character map until you are finished with CS3.
2. Open CS3
Open the image you wish to edit and adjust the image to the required size as well as the file info.
3. Select the Text Tool and place the icon anywhere on the image and click once.
Do not make a text box.
4. Right click and select paste from the menu. The © will display on the small Square made by the Text Tool. Complete the copyright with your name and year, ie. © First Last 2009.
5. Select the Move tool and place the copyright where you want it on the image.
6. Select the Text tool and use it to highlight the copyright. Once highlighted, you Can adjust the font color by clicking on color icon in the tool bar at the top of the page. Select the color you desire on the color map. The copyright will adapt the color instantly. You may change the color as many times as you need until it suites the image.
7. Finish by select the cursor arrow tool and go through the save procedure.

Process as many images as you choose.
